Abyssal SA will participate in the “Ativar Portugal Startups 2016”

April 5th, 2016 – Porto, Portugal – On the 6th of March, Abyssal SA will participate in the “Ativar Portugal Startups 2016”, invited by Microsoft Corporation. The event will take place at Microsoft Portugal Offices in Lisbon.

“Ativar Portugal Startups 2016” is an event that brings together all the community that is shaping the Portuguese Startup ecosystem, connecting the main incubators, accelerators, VCs, mentors, customers and partners under one mission: *"Bringing together the best of the best to help Portuguese Startups build successful, world-class companies"*.

With this year’s focus on “investment” and “internationalization” and with more than 100 Startups, VCs and Companies on board, the annual event will feature relevant speakers and mentors of the international ecosystem.

Abyssal will be showing the latest developments on the Abyssal OS Ecosystem of products, a set of tools designed to support O&G Operators and Contractors to perform safer and more efficient Subsea Operations.

About Abyssal

Abyssal S.A develops integrated Subsea Operating Solutions for Remotely Operated Vehicles (ROVs) in the Oil & Gas, Marine Renewables and Underwater Mining industries. The company’s ecosystem of products is comprised of a complete Life-of-field management suite from planning, live operations to data analysis and reporting. The Abyssal OS Offshore is an advanced real-time 3D visualization and operation management system to support pilots and supervisors to perform tasks in complex subsea environments, increasing safety and efficiency in ROV operations.

Abyssal OS Command Center is an Onshore Visualization and Operation Management System designed to monitor and track in 3D, operations and assets worldwide.
